

CurPod[®] HOME

GC CurPod Home Storage with Blacked-Out Glass Front Door

The GC CurPod Home is a cannabis-specific humidor with built-in oxygen, carbon dioxide, temperature, and relative humidity controls. PLC control using these sensors regulates the atmosphere automatically, keeping your loose or pre-rolled product looking, feeling, and tasting fresh until you're ready to enjoy it. With careful improvements to traditional designs to increase atmospheric isolation, such as air seals and black-out treated glass, the CurPod Home provides a long-term storage solution with the ease and convenience of accessibility anytime.

Locked Control Cabinet on Rear of Unit (Open) with Desiccant and Humidity Canisters

FEATURES

- ▣ Loose or Open Container Product Storage
