

# GC SUBSTRATE SENSOR

Grow each strain with high accuracy using our GC Substrate Sensor. Compatible with GC LiveView, this probe sensor allows the grower to gain valuable insights into the plants' health. Log into the web or app interface to view live or past readings from the cloud, or a graph to assess trends.

Our substrate sensor measures Volumetric Water Content, Temperature, and Electromagnetic Conductivity with high precision. Increased plant awareness can increase yields and plant health easily. The knowledge gained with our Substrate Controller will allow the grower to repeat processes with assurance.

## FEATURES

- ▣ Measure Water Content, Temperature, & Electromagnetic Conductivity
- ▣ Remotely View Current or Historic Readings from the Cloud with GC LiveView

*GC Substrate Sensor Controller w/ Power & Network Adapter*
